

# Aquaculture Tank

**HUGO**  
PLASTICS

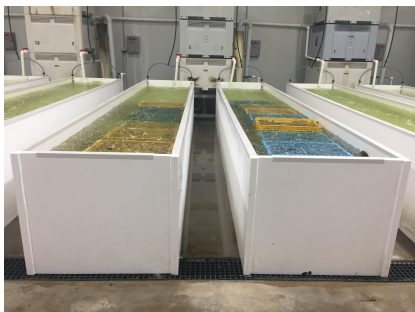

HP-M-01

Hugo tanks are custom built to suit your needs. We use a polymer which is impact, chemical and dynamic shock resistant - the walls are also scratch resistant to prevent algae growth.

As custom fabricators we are happy to work with you to design anything to suit your needs - whether that be stock holding tanks, spawning tanks, hatching tanks, raceway tanks, bacteria production tanks, water treatment tanks, ice bins, live fish transport tanks ponds or pond linings.

Aquaculture Tank  
model number HP-M-01
